- GVD demonstrates the revolutionary digital CCTV wall – E100 + K200.

GVD stands out SecuTech 2009, Taipei, Taiwan

GVD, the developer of upcoming HD NVR technology has astonished the audience in SecuTech, 2009 with the complete solution for IP surveillance.

In the best location of good traffic, GVD demonstrates the CCTV wall with 6 of 24' monitors, which was the only vendor who showed the technology in the exhibition. The monitors and viewers on the CCTV wall could be easily selected via GVD Professional Keyboard Controller. Also, at each corner of GVD booth, it is easily to find GVD total solution: E=MC2, which indicates the HD NVR, Control Workstation and Integration Gateway.

In the exhibition, GVD officially introduced the latest R2.2 to the market. The R2.2 has camera support for more leading vendors include: Arecont, ACTi, IQinvision, Pelco, Vivotek, Messoa and more. Also, it has more multiple language support and powerful functions for professional security keyboard with virtual matrix switch. The combination of GVD Control Workstation and Professional Joystick Keyboard is no doubt replacing the traditional multiplexer to a digital CCTV wall configuration. Through the exhibition, GVD has received lots of valuable and positive feedback from visitors.
